Notes from Liberty

By Allan Beegle
 LCS Chief Numismatist

Wow! After slow September sales, the turbulence in the stock markets in October convinced many people to acquire physical precious metals as safe haven assets. Even though October has not yet ended as I write this, our sales for the month have almost doubled that of September! That is the greatest month-to-month percentage increase in a very long time.

Almost everything featured in last month's newsletter and in this column has now found new homes, though we still have some of the affordable India Gold Fanams.

Last week, I attended the huge Whitman Coin Expo in Baltimore. The strength of the rare coin market was demonstrated by the size of my sales there. Unfortunately, the uptick in the collector market meant that it was a bit more difficult to find bargains than in recent months. But I still managed to bring some home.

This month it is our pleasure to offer our annual gift guide, this time titled **18 Gift Ideas For Christmas—2018**. Our children helped us select several items to offer for either the first time ever or for the first time in a long time. While we have decent supplies of some items offered, there are also some that are one-, two-, or a few-of-a-kind.

We also have a modest offering of the affordable **Phoenician City of Sidon Silver 1/8 Shekel, circa 340-325 BC**, the kind of coins that were used to pay the soldiers of Alexander the Great's army. These coins were discovered in the lands to the east of Phoenicia, which Alexander the Great conquered after Phoenicia.

Also, we have a few specimens of **Very Choice Mint State-64 1902-S \$10.00 Liberties**. Earlier this year these coins sold for a significant premium to the Common-Date 1901-S \$10.00 Liberty in the same

grade, with some selling for more than \$2,000 in auction. Then a hoard came onto the market. Today, they are still much less common than the 1901-S issue in top quality, but you can buy them for the same Common-Date price—while they last.

With business being so active, I especially recommend that you promptly review the enclosed offers, then **call our Trading Desk toll-free at 800-527-2375** to check availability and place your order.

Here are some other bargains that I brought back from Baltimore or we picked up in our store:

NGC-Certified Perfect MS-70 Sets Of Lower Mintage Burnished Silver Eagles: As most of you know, the bullion-priced US Silver Eagle Dollars have annual mintages in the millions to tens of millions.

Less well known is that the US Mint began issuing Burnished Uncirculated Silver Eagles from 2006 to 2008 and again from 2011 through 2018. Mintages peaked with the 2007 issue at 621,333 but have fallen to less than 200,000 from 2016 onward.

While none of these coins are particularly rare to find certified in Perfect MS-70 quality, it can be a challenge to assemble the 11-coin set. In purchasing these coins one at a time, collectors this year have devoted a lot of time and sometimes spent more than \$1,500.

LCS Numismatist David Hartung found a dealer that had a couple dozen 11-piece sets of these coins certified by either PCGS or NGC that were available at a reasonable

price. By the time he confirmed that they were a great value and called back to purchase them, they dealer only had two sets left—both with all coins certified by NGC. He immediately bought them.

While the dealer was saying that we probably should offer these for \$1,495 or so, we love saving money for our customers. Either set would cost you \$1,295.

Beautiful Great Britain King Charles I Gold Unite: English, Irish, and Scottish King Charles I (1625-1649) reigned during turbulent times. Soon after his succession to the throne, he quarreled with Parliament. Charles believed in the divine right of kings to govern according to their conscience. The Parliament did not. Although a member of the Anglican church, he married a Roman Catholic, which created antipathy and mistrust across the nation.

The turmoil turned into the British Civil War in 1642, where his loyal troops fought those supporting the parliaments of England and of Scotland. He was captured in 1645, but temporarily escaped in 1647. By 1648, Oliver Cromwell's New Model Army had consolidated control over England. Charles was tried, convicted, and executed in January 1649, after which Cromwell abolished the monarchy and declared the Commonwealth of England. Charles' son, Charles II, re-established the monarchy in 1660.

For such turbulent times, it seems incongruous that Charles I issues a Gold Unite

coin. This stunning, PCGS-certified About Uncirculated-50 specimen has almost a completely flat planchet, unlike most examples of this large, thin coin. The obverse depicts Charles I, while the reverse is dominated by the coat of arms of a United Kingdom of England, Scotland, Ireland, and Wales.

This issue was struck in either 1630 or 1631. You can own this rare treasure for just \$3,395.

The LCS \$3.95 Bargain Box: In our showroom, we have a tub in which all the US Proof Sets and other US and foreign coin sets cost just \$3.95 each. It is one of the most popular spots in our showroom. Lots of bargains in here. But, sorry mail-order customers, you have to come in to our showroom to see what treasures are in the \$3.95 Bargain Box.

2018 Uncirculated Pictured Rocks National Lakeshore Quarter Mounted In A Sterling Silver Pendant:

Those who love Michigan may want to show off their feelings by wearing a Sterling Silver Pendant that holds the Michigan Quarter honoring Pictured Rocks National Lakeshore as the state's contribution to the America the Beautiful Quarter series. We install the coin and add a sterling silver bail so that it can be immediately worn with most chains. Just \$19.95.

By the way, if you have an interest in any other Uncirculated Statehood or America the Beautiful Quarters mounted in a sterling silver pendant, almost all of them would cost the same price.

Gem Mint State-65 1936 PDS Daniel Boone Commemorative Half Dollar 3-Coin Set: For five years beginning in 1934, the US Mint struck Commemorative Half Dollars honoring the 200th Anniversary of the 1734 birth of the famous explorer Daniel Boone.

From a dealer friend, I just bought this lovely well-matched PCGS-certified 1936 Set, with one coin each from the Philadelphia, Denver, and San Francisco Mints. Mintages were modest at 12,012, 5,005, and 5,006, respectively (though some Boone issues in 1935, 1937, and 1938 have lower mintages).

These bright coins have hints of golden-brown toning to attest to their original surfaces. At one time you could have paid as much as \$2,700 to own these coins. Your cost today—\$495.

18 Gift Ideas For Christmas—2018

Alison Beegle, Abigail Coulson, and Nicholas Coulson (with help from the Liberty Coin Service Staff)

Imagine being able to hold something in your hands and think about who might have held or spent it at one time—maybe a king or queen, an explorer, a soldier, an inventor, someone else historically famous, or just everyday people!

If you are interested in unique gifts of enduring value, Liberty Coin Service has something to please almost everyone on your list.

Whether you seek something artistic, historic, valuable, durable, or practical, you are almost certain to find several ideas listed here that are perfect solutions—as well as being affordable. Money has often been called the footprints of history. Years from now, these long-lasting treasures will still remind your recipients of your thoughtfulness and love.

Many items come in a box or package ready for wrapping. However, for your convenience, any item can be gift wrapped for a \$5 fee and mailed directly to your recipient for a postage charge of \$5-30 per address (see the box on our Computer Quotes page for details).

If your payment is received by December 9, our dads guarantee delivery before Christmas. To ensure your 100% satisfaction, you have until January 11, 2019 to return any items listed here (other than the Silver and Gold American Eagles and other bullion-priced products) for a full refund.

Orders over \$10 paid by Visa, Mastercard, or Discover credit cards will get you fastest shipment (note: credit and debit card payments are not accepted for bullion-priced products totaling more than \$100).

We hope you have as much fun looking through this list as we did preparing it. Pick your favorites. Then call our dads or the other friendly people at Liberty at **800-527-2375** for more details and ideas and to confirm your order. Or, come to our showroom in the Frandor Shopping Center to find many more tempting treasures. We hope you enjoy our ideas. Thank you very much. Blessings to you all!

18 Gift Ideas Of Christmas 2018

1. 2018-Dated Collector Coins and Sets. Especially popular are those issued by the US Mint. They include the Regular Proof Set (10 coins)—\$31.95, Silver Proof Set (10 coins of

which 7 are made of 90% Silver)—\$53.95, Quarter Proof Set (5 coins)—\$19.95, Silver Quarter Proof Set (5 coins made of 90% Silver)—\$37.95, US Uncirculated Mint Set (20 coins)—\$25.95, and the Proof Silver Eagle Dollar—

\$59.95. While these prices are slightly higher than purchasing direct from the US Mint, they are below what the Mint charges after postage.

2. 2018-Dated Gold, Silver, and Platinum Bullion-Priced Coins.

These choices include the US Gold, Silver, and Platinum, and Eagles, US Gold Buffaloes, and issues from Australia, Austria, Canada, China, Niue, United Kingdom, and elsewhere.

The available selection is constantly changing. You need to call to purchase these by mail order or come into our store for local delivery to check on current prices and availability. (**Also, because these products are priced on the basis of their precious metal content, orders for these items, once confirmed, cannot be canceled or returned for refund. Charge and debit card payments are not acceptable for these products.*)

3. 2018-Dated 1 Ounce Pure Silver Christmas Round and Rectangular Commemoratives packaged in a clear plastic ornament holder to hang on a tree or display—\$24.95 each. These are popular every year. We have a variety of Christmas designs. All round ones are 1-5/8" in diameter, The round and rectangular ones all read on the back "Best Wishes For Peace And Joy This Holiday Season 2018" and have space if you wish to arrange locally for some personalized engraving.

Among the round designs are Baby's First Christmas, We Wish You A Merry Christmas showing 3 dogs wearing Santa helper hats, 2018 Merry Christmas Farmyard Scene, Oh Holy Night Creche Scene, Santa Claus Head, A Christmas Wish with a praying child angel, 2018 Train Station and Steam Engine, and Season's Greetings with two bells hanging on a Christmas tree branch. The rectangular designs are Holiday Wishes with teddy bears decorating a Christmas tree or Standing Santa Claus With His Gift Sack and Reindeer. Multiple orders will receive a variety, or you can pick your own themes (while they last).

4. 2018 5 Ounce Silver Michigan Pictured Rocks National Lakeshore Quarters. There were two different versions of this 5 Ounce Pure Silver Quarter, with a diameter of 3 inches. The Uncirculated Bullion issue has a modest mintage of just 20,000 pieces. You can own one or more of these for just \$99 apiece. We also have a couple specimens of the Burnished Uncirculated sold by the Mint at a far higher price, which you can own for \$149 each.

5. Lot/10 Different Date US Indian Cents in Fine or

Better Condition—\$39. Almost all Indian Cents, issued from 1859 to 1909, entered circulation and experienced excessive wear. Only a small percentage survived where you can read all letters in LIBERTY to merit a grade of Fine. Each lot of 10 different-dated problem-free coins will include one from the 1880s, and three or more from the 1890s. These and the following two items make excellent starter lots for a beginning collector, so the coins will come as installed in a new Whitman Tri-Fold Coin Album at no extra charge.

6. Lot/15 Different Dates or Mintmarks of US Buffalo Nickels in Fine or Better Condition—\$45. Buffalo Nickels (issued 1913-1938) typically received excessive wear from circulation as well. To merit a grade of Fine, the Buffalo's horn and tail need to be partially visible. Within each of these lots, you will receive one specimen from 1913, at least two from the 1920s, and at least one each from the Denver and San Francisco Mints. This is the popular coin design adapted to create the US Mint's Gold Buffalo artwork.

(issued 1913-1938) typically received excessive wear from circulation as well. To merit a grade of Fine, the Buffalo's horn and tail need to be partially visible. Within each of these lots, you will receive

7. Lot/12 Different Dates or Mintmarks of US Mercury Dimes in Very Fine to About Uncirculated Quality—\$40. To grade Very Fine, Mercury Dimes (issued 1916-1945) need to show the diagonal bands across the fasces on the reverse side. These silver coins also tend to be well circulated, with only a small percentage grading at least Very Fine. Each lot will contain at least one coin dated before 1930, some from the 1930s, and at least one example from the Denver and San Francisco Mints.

8. Numismatic Or Bullion-Priced Coins Or Coin Sets From The US And Other Nations. The variety of options are almost endless. Look for coins dated in special years such as birth, marriage, death, and other occasions. Or look for coins issued by nations of ancestors. Or topical designs. Or significant themes. Or . . . Please call or visit www.libertycoinservice.com for more details.

9. Ancient Roman Bronze Nummus, from which the term "numismatics" is derived. In the early 4th Century, Constantine (the Great) and Licinius united to defeat the third Co-Emperor Maximinus II. Thereafter, Constantine served as the Emperor of the Western Roman Empire and Licinius as Emperor of the Eastern Roman Empire.

Over the course of the next decade, the two rulers fought two

Wars against each other, before Constantine won a decisive victory in a third war and forced Licinius to abdicate.

For the next few decades Constantine and his sons ruled the entire Roman Empire.

By this time, almost all gold and silver coins had disappeared from circulation. Everyday coinage was either copper or bronze issues, many of them denominated as a Nummus.

From a new hoard, we were able to pick a handful of the loveliest looking NGC-certified specimens of these historic coins. They are all sharply detailed and well-centered, sure to please the fussiest collector. They are far superior to typical surviving specimens. While they last you can choose from:

Licinius I (308-324 AD), Choice Extremely Fine—\$85.

Maximinus II (310-313 AD), Choice Extremely Fine—\$85, About Uncirculated—\$99.

Crispus (316-326 AD and Constantine's oldest son), Extremely Fine—\$69, Choice Extremely Fine—\$85.

Unattributed Constantinian Era (circa 330-340 AD and issued by one of Constantine's sons—Constantine II, Constantius II, or Constans), Very Fine—\$59.

10. The most famous coin in the Bible! The 2,000-year old "Widow's Mite"—\$36.95. The Widow's Mites may be our all-time best selling numismatic foreign coin! Over the years,

we have sold thousands of them. Advertised elsewhere for \$59, \$69 and even higher prices! These popular 2,000 year old copper coins are mentioned in the

Gospels according to Mark and Luke. They actually circulated in the Holy Land during the time of Christ. We have identified each piece by the issuing Hebrew king or Roman procurator (governor), then packaged them in an attractive stand-up display containing historical background about Biblical coinage.

11a. Byzantine Gold Solidus of Justinian I (The Great). The Gold Solidus replaced the Gold Aureus in the latter days of the Roman Empire, and was continued for centuries in the Byzantine Empire.

Emperor Justinian I (527-565 AD) dissipated the massive accumulation of gold in the treasury to expand the Byzantine Empire to its greatest extent. All of Italy was conquered as well as neighboring territory in France. His armies also captured the entire shore of

North Africa and much of the eastern shore of Spain.

We recently repurchased this lovely Choice Extremely Fine Gold Solidus struck at the mint in Constantinople. Nicely centered. \$595.

11b. Scyphate-Shaped Byzantine Empire Gold Hestamenon Nomisma of Michael VII. During Michael's brief tenure as Byzantine Emperor (1071-1078), the Empire lost lands to the Bulgarians, Italians, and the Seljuk Turks. When two of his generals revolted against him, he meekly resigned.

By this time, Byzantine gold coins had much lower purity than in centuries past. The gold coins were no longer flat. Instead, they were scyphate, meaning curved, convex, or cup-shaped. The forthcoming 2019 Apollo 11 50th Anniversary US Commemorative coins will be the second series of US Commemoratives with a scyphate shape.

This Very Fine example depicts the emperor on one side and Jesus Christ on the other. \$495.

12. Medieval Hungary Madonna & Child Silver Denar, 1528 KB, Mint State-61, NGC—\$99. Jesus's mother, the Madonna, is considered the patron saint of Hungary. These coins were issued in a turbulent time in Hungary's history. The lands in the north and west were part of the Roman Catholic Hapsburg Empire. The center was part of the Ottoman Empire, which practiced religious tolerance. The eastern principality of Transylvania was a suzerainty of the Ottoman Empire whose population was mostly Catholic, which became known for fostering major Protestant sects. We have sold many circulated specimens of the popular coin, among the first to bear an actual date. But, these two specimens are the first two we have ever handled in Mint State condition. One of our national competitors is offering marginally nicer MS-62 examples at twice our price.

13. US National Currency Or Obsolete Paper Money Issued In Many States And Cities. If there is a city or state of particular interest to you, we just might have some examples of US National Currency (issued from the Civil War to 1935) from there. For example, we have in stock right now specimens from four of the six Lansing, Michigan banks for which the US government issued National Currency: The Second National Bank of Lansing, Capital National Bank of Lansing, City National

Bank of Lansing, and Lansing National Bank, with prices starting at just \$105. Please call to ask what we may have in stock today.

14. Zenith Elite Ultra Thin Wristwatch, One of only 30 created to Commemorate the 250th Anniversary of Hennessy—\$1,650. Never worn. Purchased from a descendant of

the Hennessy family. Will fit onto wrists up to 8" in circumference. Comes complete with original box and all the paperwork and certificate.. These have sold in recent auctions for \$1,750 or more.

15. Top Quality 4.0 Carat Pear Cut Tanzanite mounted in a 14 Karat White Gold Pendant/Necklace—\$3,995. GIA-Certified. Newly manufactured by a Michigan-based jewelry craftsman.. The tanzanite is surrounded by small round diamonds.

16. 14 Karat White Gold Well-Matched Round Diamond Earrings—individually priced. LCS staff expert David Hartung has been certified as a Graduate in Diamonds by the Gemological Institute of America. He has carefully selected pairs of round brilliant cut diamonds that are conservatively-graded and well matched for size, shape, eye-appeal, and overall quality.

We then hired a well-known, experienced Michigan jewelry manufacturer to set them in brand new 4-prong 14 Karat White Gold post earrings. On average, the quality of the diamonds we put into these earrings is higher than you will find in typical jewelry stores. If you have been shopping, you also know that white gold earrings are difficult to find.

Our selection is constantly changing, so call to check on our current inventory. Here are some examples of what we have in stock right now:

0.45 carat total weight (TW), SI2 clarity, H color—\$495.00

0.56 carat TW, VS2 clarity, G color—\$795.00

0.62 carat TW, SI2 clarity, H/I color—\$749.95

17. Hidden Waist Travel Wallet—\$19.95. This high-tech slim "fanny pack" incorporates RFID blocking technology. Can be worn inside pants or skirt without showing, but has a 10" x 5" waterproof pocket and a 7" x 4" pocket that can hold your cell phone with headphones inserted. We have sold hundreds of these since June.

18. Current Spending Money for an International Vacation Destination. We stock currencies spent in Australia, Canada, China, Czech Republic, Denmark, the Eurozone, Hungary, Iceland, India, Israel, Japan, Mexico, New Zealand, Norway, Switzerland, and the United Kingdom. We may have in stock or can quickly obtain several other currencies. Unfortunately, because of federal regulations, we can only accept cash payment for foreign currency exchange, which means all transactions must be conducted in our store. You can go to http://libertycoinservice.com/wp-content/uploads/quotes/foreign_exchange.pdf to check our current buy and sell prices. There are no extra fees on top of our exchange rates.

Were These Silver Coins Used To Pay The Soldiers Of Alexander The Great?

From a West Coast dealer friend, we have acquired a modest quantity of historic coins that we cannot recall ever before having in inventory—

The Phoenician City of Sidon Silver 1/8 Shekel, circa 340-325 BC, Average Circulated.

These were the kind of crudely struck small coins that were captured by Alexander the Great's forces when they swept through what is now modern-date Lebanon. They were Obviously used to pay his troops, as these coins were discovered in lands to the east that were conquered later, with each coin representing about two day's earnings.

One side depicts a galley ship sailing toward the west. The other side features a standing heroic king holding up a lion with one hand as he prepares to stab the animal with a knife in his other hand.

The technology of the era involved placing a silver planchet in between the hand-carved dies at the points of a pair of tongs, then pounding on the tongs to impress the designs on the metal coin blank. As you might understand, this resulted in no two pieces looking exactly alike.

We see a handful of nicer specimens offered elsewhere for prices well over \$100 to almost \$200 each. But, while our supply lasts, you can own these Average Circulated specimens for just \$49 apiece.

However, because of our limited supply, we must limit orders to five (5) coins per customer. No exceptions!

Very Choice Mint State-64 1902-S \$10.00 Liberties! A Semi-Rarity At A Common-Date Price!

At the last major market peak for US coins in mid-1989, a Common-Date Very Choice Mint State-64 \$10.00 Liberty would have cost you \$7,875—at a time when the spot price of gold was around \$360.

Today you can own it for far less—just \$1,080.

In LCS Communications Officer Patrick A. Heller's recently updated analysis of the best values in Pre-1934 US Gold Coins, the MS-64 \$10.00 Liberty came out with an Undervaluation Index™ of 317! That is far above the threshold Index of 40 for this coin to earn our Highest Recommendation for appreciation potential.

Good news! What could be even more exciting that acquiring the Common-Date 1901-S \$10.00 Liberty in Very Choice Mint State-64 quality (which has a mintage of 2,812,750 and a combined PCGS/NGC MS-64+ population of 11,808)?

How about the Very Choice Mint State-64 1902-S \$10.00 Liberty, which has modest mintage of 469,500 and a total PCGS/NGC MS-64+ population of just 1,808 pieces—**that you can purchase for the very same price!**

At the beginning of this year, the high-grade specimens of the 1902-S were many times rarer than the 1901-S date—before a hoard came onto the market. Before this hoard appeared, at least 2 of the MS-64 1902-S \$10.00 Liberties sold in major auctions in 2018 for more than \$2,000. But, the appearance of this hoard, while still leaving this date more than 6-1/2 times rarer than the 1901-S in top quality, has pushed its price down to that of the common issue.

We were able to hand-select the nicest few PCGS- and NGC-certified specimens from part of this hoard, though not as many as we would have liked.

While they last, you can pick up one of these beautiful treasures for just \$1,075 each. See the chart on our price quotes page for the postage costs.

With so few coins available, though, we must limit customers to only one coin.
