Notes from Liberty

By Allan Beegle
 LCS Chief Numismatist

While May sales were our slowest of the year, it was still among the higher sales months in our 50 years in business. We continue to be on pace to surpass last year's second highest annual sales volume in our more than a half century in business.

We sold out many, but not all, of our Better-Date Morgan Dollars offered last month. Our Pre-Civil War Gold Double Eagles sold out as did most of the other featured items.

After a very busy April for coin show attendance, trade show activity slowed down in May. Last week, LCS Communications Officer Patrick A. Heller attended the Texas Numismatic Association show in Arlington. While there he was able to pick up some great bargains.

Two years ago, we were able to offer a relatively complete set of \$5.00 Indians, which sold out quickly. Last month, a dealer friend formerly from Michigan negotiated a deal with LCS General Manager Tom Coulson to sell us several dates and mintmarks of **Better Date \$5.00 Indians**. Among these are two dates and mintmarks that were absent from the collection two years ago.

Last month, I also purchased the largest group of **Gem Mint State-65 Walking Liberty Half Dollars** that we have managed to acquire over the past seven years! We have been trying diligently to acquire top quality Walkers over the past seven years, but mostly have been able to find only one or two at a time—which sold almost as fast as we got them. Now it looks like prices are starting to rise for these beautiful coins. As is our normal

Prices quoted are for quantities indicated, and are actual selling prices at today's closes. Smaller lots are available at slightly higher prices. No Michigan Sales Tax on rare coins or precious metals bullion. Numismatic purchases have a 14 day return period. Orders for bullion-priced items (marked with *) are not returnable and, after confirmation, cannot be cancelled.

practice, we offer our existing supply now rather than risk higher prices as we sought more coins.

At the TNA show last week, Pat managed to scoop up four different **Scarce High Grade Undervalued Peace Dollars**. Along with one more rarity Pat had purchased at the Central States Numismatic Society show at the end of April, each is among finest specimens we have ever had in stock of these rare dates.

Several coins offered here are one-of-a-kind to few-of-a-kind. Consequently, we expect several will sell out soon. As I regularly remind you, please consult our enclosed offers. Then, quickly call our **Trading Desk toll-free at 800-527-2375** to check availability and confirm your purchases.

As usual, here are other one-of-a-kind fresh treasures to tempt you:

2000 Andorra Gold 10 Dinars Perfect Proof-70 Ultra Cameo: This may be the first gold coin from Andorra we have ever had in our inventory. This tiny principality between France and Spain issued an estimated 3,000 of this Year of the Dragon 1/10 Oz pure gold coin. However, this is one of only 3 specimens certified by NGC—all in the same top condition.

We could not find any other pieces of this rarity in any grade offered for sale anywhere else, even among the inventories of two dealers who specialize in stocking coins from this nation. Year of the Dragon coins are popular as good luck symbols. Maybe this could bring you good fortune. Only **\$495**.

(Historical note: the Diner denomination used in Andorra before it adopted the euro currency was derived from the Roman Silver Denarius.)

Finest Known Type 2 Proof Franklin Half Dollar?: PCGS and NGC combined have certified 938 Near Perfect Proof-69 1956 Type 2 Franklin Half Dollars. However, this NGC-certified coin is graded Proof-69★. The Star signifies a coin of exceptional eye appeal and beauty. We don't know if any of the other Proof-69 specimens also earned a Star.

This specimen has a beautiful cameo obverse while the reverse is completely mirror-like. By the way, the highest price at which a 1956 Type 2 Proof Franklin has sold was \$8,625. Current PCGS PR-69 *PCGS Retail* is \$600. If the year 1956 is special to you or you want a breathtakingly beautiful coin, your cost is only **\$395**.

Exceedingly Rare And Beautiful 1871 \$2.50 Liberty: Only 5,320 \$2.50 Liberties were struck at the Philadelphia Mint in 1871. Over the past 36 years, PCGS and NGC together have certified a paltry 59 examples in Very Choice About Uncirculated-58 quality, and only 65 more specimens in all Mint State grades. It is so scarce that we cannot recall if we have ever had this date in stock in any grade.

This NGC-certified AU-58 beauty has razor sharp details and mint luster around the periphery. *PCGS Retail* is \$1,750. We

Gold:	\$1,855.00
Silver:	\$22.15
Platinum:	\$1,020.00
Palladium:	\$1,988.00

found two specimens in the inventories of other dealers, with each priced to us at \$1,700. But, you can own this amazing coin for the LCS money-saving price of **\$1,395**.

Tied For Finest PCGS-Certified 1932 Netherlands Gold 10 Gulden:

During the depths of the Great Depression, few countries issued gold coins in 1932. The Netherlands was one of that nations, issuing 1 Ducat and 10 Gulden gold coins that year.

This PCGS-certified Superb Gem Mint State-67 piece is tied with 13 other coins for the finest certified at that date at this grading service. NGC has certified just one coin in this lofty condition.

You can pick up circulated Dutch 10 Gulden for around 10-12% above gold value (0.1947 Oz gold content). However, you will probably never again have the opportunity to have to own any coin this beautiful with a portrait of Queen Wilhelmina.

She assumed the Dutch throne at the age of 10 in 1890 and reigned until 1948. Because of her family's business interests, she also became the first female billionaire in world history. At **\$575**, you can own it.

Fresh Michigan National Currency:

You can find a number of Michigan National Currency notes offered for sale on our website, so feel free to review the selection offered there. But, here are two specimens we just purchased yesterday from a Michigan dealer friend. (Michigan residents add 6% sales tax).

The First National Bank of Bay City, Michigan, Charter #2853, \$20.00 Series of 1929 Type 1, Very Choice Uncirculated-64—\$275. This bank operated for 1883-1931. There are at least 50 known uncirculated specimens of this note reported, because of several 6-note sheets that were cut apart. Outside of common Detroit issues, this is about the most affordable high grade Michigan national. Outstanding condition. You can even feel the embossing of the bank name and serial number in the paper!

Farmers And Merchants National Bank & Trust Company Of Benton Harbor, Michigan, Charter 10529, \$10.00 Series of 1929 Type 1, Fine—\$99. This bank operated from 1914-1934. Over 70 known survivors of all types and denominations from this bank, making it relatively common. There is one tiny pinhole and the corners are rounded from circulation. An affordable specimen in typical condition.

Andorra, 2000, Gold 10 Diners
PF70 Ultra Cameo NGC Certified - \$495

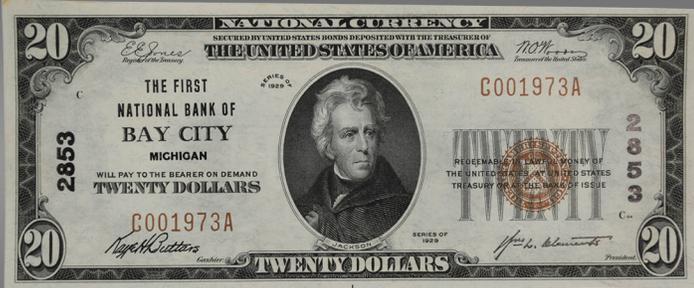

1956 Franklin Half Dollar, Type 2,
PF69* NGC Certified - \$395

1871 Gold \$2.5 Liberty AU58 NGC Certified - \$1,395

Netherlands, 1932, Gold 10 Gulden,
MS67 PCGS Certified - \$575

1929 Type 1 \$20 The First National Bank of Bay City, MI, Note, CU64 - \$275

1929 Type 1 \$10 Farmers And Merchants National Bank & Trust Company of Benton Harbor, MI, Note, Fine - \$99

Better Date \$5.00 Indians!

By Tom Coulson, LCS General Manager

Two years ago we were able to offer a lovely collection of \$5.00 and \$10.00 Indians, including many Better-Date issues in grades popular with collectors. They sold out quickly.

It is easy to understand the collector appeal of the \$5.00 Indian. Along with the \$2.50 Indian, these are the only two US circulating coins with an incuse design. That means that the designs, lettering, and dates are all sunk down into the coin below the field—not raised above the field like all other US circulating coins. The \$2.50 and \$5.00 Indian (along with the Buffalo or Indian Head Nickel) feature authentic portraits of Native Americans, unlike the Indian Cent (which was adapted from an ancient Greek sculpture) or the \$10.00 Indian (which depicts a female Liberty).

There was one significant production problem with the incuse designs, though. As the coins were struck, residue of the grease in the dies would tend to collect in the sunken devices of the design, leaving many of these pieces looking less brilliant than other designs that are not incuse.

In early May, a dealer friend who used to be from Michigan called to offer me a modest group of Better-Date US \$5.00 Indians. He has long known of our interest in better-date US Gold Coins that are available—when you can find them—at prices much closer to common-date issues than their relative rarity would lead you to expect.

There were not enough pieces of any one date for us to offer to our entire clientele. However, in being willing to acquire several different dates and mintmarks, we negotiated a somewhat better price to be able to hand-select only the coins that met our strict quality standards and, in the process, acquire sufficient coins for you.

We ended up being able to pick up just 33 coins among the five issues. Most have been

independently certified by the Professional Coin Grading Service (PCGS) and a few by the Numismatic Guaranty Corporation (NGC).

With so few coins, we have omitted the order blank. Please review these beautiful rarities. Select your favorites. Then call our Trading Desk toll-free at **800-527-2375** to check availability and confirm your order. Refer to our Computer Quotes page for the postage costs.

For fastest shipment, you can use your Discover, Mastercard, or Visa credit cards for payment. As with all of our numismatic offerings, you must be satisfied. You have 14 days upon your receipt to return them for a full, no-questions refund.

For comparison, here is information on the 1909-D \$1.00 Indian, the most common \$5.00 Indian: Mintage, 3,423,560; AU-58+ PCGS/NGC population of 72,482 and MS-61 and higher PCGS/NGC population of 62,154; PCGS Retail of \$950 in AU-58 and \$1,100 in Mint State-61, LCS selling price of \$765 in AU-58 and \$905 in MS-61.

US 1909-S \$5.00 Indian, Very Choice About Uncirculated-58, PCGS—\$1,495 (5 coins available). Low mintage of 297,200, the 11th lowest of the 24 issues in this series. PCGS and NGC together have certified a meager 1,068 pieces in AU-58 and all higher grades combine—making it almost 68 times scarcer than the 1909-D issue! It is so rare that the collection we handled two years ago didn't have this date and mintmark.

PCGS Retail is \$2,000, but another nice specimen sold in auction last month for \$2,300! We can offer you much better values.

US 1912-S \$5.00 Indian, Very Choice About Uncirculated-58, PCGS—\$1,295 (4 coins available). The mintage of 392,000 makes this the 12th lowest of the \$5.00 Indian

series. The combined PCGS and NGC AU-58 and higher certified populations total just 1,842, making this date more than 39 times scarcer than the 1909-D in higher grades.

This issue in this grade is rare enough that only a single specimen has been offered in major auctions over the past eight months. We were able to find another specimen of this quality in another dealer's stock, but his price quote to us was \$1,350.

PCGS Retail is \$1,750. But, as with every coin offered here, you can own these beauties at the LCS money-saving bargain price.

US 1913-S \$5.00 Indian, Very Choice About Uncirculated-58, PCGS—\$1,275 (2 coins available).

While the mintage of 408,000, 13th lowest of the series, might lead you to expect this might be the most common date and mintmark offered here, it is not. In AU-58 and all higher grades, PCGS and NGC have certified a paltry 2,260 specimens over the past 36 years! That makes it more than 32 times scarcer than the 1909-D

in this and all higher grades!

Only one specimen of this grade has appeared in major auctions over the past 17 months. It sold three months ago for \$1,320. PCGS Retail is \$1,500. Once again, we can offer two lovely examples at a huge discount to catalog value.

US 1914-D \$5.00 Indian, Mint State-61, PCGS—\$1,050 (11 coins available). The mintage of 247,000 coins is tied for 8th lowest of the entire \$5.00 Indian series. Despite this comparatively low mintage, this is actually the least rare in higher grades of the five dates and mintmarks offered here.

The nice \$5.00 Indian collection we handled two years ago did not have a specimen of this date and mintmark.

PCGS and NGC combined have certified

4,613 examples in Mint State-61 and nicer condition. That does not make it common, though, as it is still more than 13 times rarer in nice quality than the 1909-D.

Like the others in this offering, they rarely appear in major auctions. Only two pieces have sold over the past nine months in such auctions, with one selling in February for \$1,200. A specimen in Mint State-62 condition sold in a major auction two months ago for \$4,080.

For all this scarcity, you can own these coins for a price that is barely 16% more than you would pay for the 1909-D in the same grade.

US 1916-S \$5.00 Indian, Mint State-61, PCGS/NGC—\$1,450 (11 coins available).

This date has the lowest mintage in this offer at just 240,000 coins. That is the 7th lowest mintage of the series. Partly because of the economic effects of World War I being fought in Europe in 1916 (although the US had not yet entered this conflict), no circulating US gold coins were struck at the Philadelphia or Denver Mint in 1916. The quantities of \$5.00 and \$10.00 Indians (138,500) produced at the San Francisco Mint were modest. Even the 1916-S \$20.00 St Gaudens mintage of 796,000 was not large.

Together, PCGS and NGC have certified 2,183 1916-S \$5.00 Indians in Mint State-61 and all higher grades. That makes this date more than 28 times rarer than the 1909-D in high grades.

Only two specimens in this grade have appeared in major auctions over the past six months.

PCGS Retail is \$2,000, but once again the LCS money-saving bargain price makes this much more affordable.

Gem Mint State-65 Walking Liberty Half Dollars!

At Money Saving Prices!

The Walking Liberty Half Dollar series that debuted in 1916 made an artistic statement of the emergence of the United States of America as a world power.

The obverse shows Liberty striding toward a rising sun in the East (and possibly toward war-torn Europe). She is wrapped in an American flag and carrying oak and laurel branches, symbols of military and civil honors. On the reverse, a proud eagle stands guard with partly spread wings. In front of the eagle is the sapling of a gnarled Mountain Pine, symbolic of America. Significantly, the eagle is not clutching arrows in its talons, a symbol of war that appears on many other US coins (including circulating US Half Dollars from 1801 through 1915 and from 1964 onward).

Walking Liberty Half Dollars are so popular among collectors that the U.S. Mint adapted the obverse design for the new U.S. Silver Eagle Dollar series that debuted in 1986.

High-grade Walkers today trade for price levels that are a fraction of what they did in years past. For instance, in mid-1989, common-date Gem Mint State-65 specimens would have cost you \$620 apiece.

Today, the common-date Walking Liberty Half Dollar in MS-65 quality catalogs in *PCGS Retail* at \$150.

It has been seven years since we last offered a group of Walkers in top quality! Back then, we sold out quickly and took months to locate enough coins to fill customer waiting lists.

Ever since, we kept looking for more attractive groups of top condition Walkers at money saving prices. We have only found a few sizeable groups in the years since, but all were priced at substantially higher prices than reflected good value. Instead, we had to satisfy ourselves finding coins just one-, two-, or a few-at a time. However, these coins are so popular with collectors that they tended to sell almost as quickly as we found them.

The Bad News! While prices for many US coins, especially Morgan and Silver Dollars have been quite strong over the past year, the prices of high quality common-date Walking Liberty Half Dollars had been steady. But, prices recently started to climb. In major auctions last month, multiple attractive coins sold for as much as \$140 each. In the Collector's Corner market, most coins are now offered at \$115-125

each, with some priced as much as \$200!

The Good News! A dealer friend recently sold us the largest quantity of Gem Mint State-65 Walkers that we have handled in many years—at a reasonable price. We screened out the pieces that did not meet our fussy standards and offer the balance to you.

Each coin has been independently certified by either the Professional Coin Grading Service (PCGS) or Numismatic Guaranty Corporation (NGC) as well as meeting our requirements for eye appeal and quality.

Together, PCGS and NGC have certified **barely 27% the number of MS-65 or higher quality Walking Liberty Halves compared to the MS-65 or better Morgan Dollars they have graded.**

The Dilemma—Although this is the largest quantity of these high-grade coins that we have handled in seven years, I'm not sure that we have enough coins to meet possible demand. We don't want to risk prices increasing further while we seek additional pieces, so instead offer what we have right now at money-saving prices!

Prices for these coins are still close to as low as they have been over the past decade.

While they last, you can pick up one or more of these Gem Mint State-65 Walking Liberty Half Dollars for just \$109 apiece.

Save in quantity! If you order five to eight coins, pay just \$107 for each of them. Bonus: Orders of 5 or more coins will receive the greatest variety of dates and mintmarks.

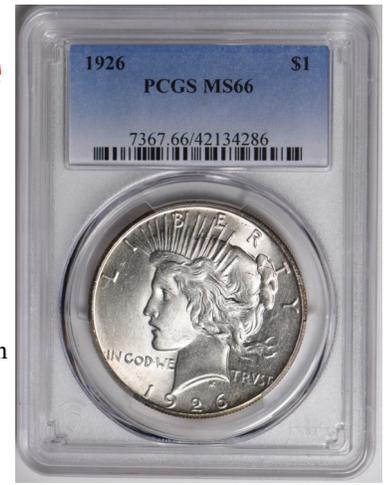

As with all our numismatic offerings, your satisfaction is guaranteed. You have 14 days upon your receipt to return them for a full refund.

Since we could not locate as many coins as we hoped, we must limit orders to eight specimens of this popular large coin. We have also omitted the order blank. You must call to confirm availability and reserve your purchase. **Call our Trading Desk today at 800-527-2375!** Visa, Mastercard, and Discover charge cards are accepted for orders shipped to the card's billing address.

—Allan Beegle, LCS Chief Numismatist

Scarce High Grade Undervalued Peace Dollars!

US Peace Dollars were only struck for circulation over 10 years, from 1921 through 1928 and 1934-1935. They were struck at all three Mints in only five of those years. For the years 1922 through 1925, seven of the

the June 8, 2022 issue of *Liberty's Outlook*). Whenever we can pick up an attractive Mint State example of this date, it always seem to sell quickly. This is the scarcest coin in high grade of those in this offer.

ten issues had mintages above 10 million. From 1925 through 1935 there was only one issue (the 1926-S with 6,980,000 struck) that had a mintage higher than the 2,348,700 of the 1926-D.

With only 24 different dates and mintmarks in the entire series, Morgan Dollar collectors often go on to assemble a set of Peace Dollars as well. In Very Fine condition, all but three of the issues can be acquired for less than \$50 apiece. However, in higher grades, several dates are incredibly tough to find. Most of the later dates in the series have much lower mintages than the typical Morgan Dollar. As a result, there are many dates and mintmarks of Peace Dollars that are genuinely scarce in high grades! These are the kinds of treasures you typically only find one at a time.

Exciting Discoveries At Two Shows!

At the Central States Numismatic Society show near Chicago at the end of April. I was able to snap up the stunning Gem Mint State-65 1922-S Peace Dollar offered here. It features blue-brown toning around the periphery, attesting to the coin's original surfaces. It is almost certainly tied for the finest quality 1922-S Peace Dollar we have handled in our 51 years in business. Even under close examination, this coin may be undegraded.

Last weekend I was in the Dallas-Fort Worth area to "walk the floor" at the Texas Numismatic Association show. I was stunned to find four other scarce, high grade Peace Dollars with flashy white surfaces in the inventory of a dealer friend. By purchasing several coins from this dealer, I was able to negotiate reasonable prices for all of them.

Of the five one-of-a-kind coins listed here, four have been certified by the Professional Coin Grading Service (PCGS), while the 1926-D was graded by the Numismatic Guaranty Corporation (NGC).

The 1924-S Peace Dollar in Choice Mint State-63 condition has a stronger than average strike for the issue, with some hints of toning spots in the nooks and crannies of the design (see a good picture of both sides posted at www.libertycoinservice.com when you review

The 1926 Peace Dollar in Superb Gem Mint State-66 quality may be tied with the finest of this date we have ever had the honor to have in our inventory.

The 1926-D Peace Dollar graded Very Choice Mint State-64 is probably among the ten finest examples of this date we've hand over the more than half century in business. This is a date where multiple dealers are currently offering buy prices far above catalog value. I did learn of an attractive specimen owned by a Florida dealer. When I contacted him to ask what he would charge me, he quoted \$600.

It has been a long time since we have carried a 1928-S Peace Dollar in beautiful Choice Mint State-63 condition. Once again, this is among the nicest specimens of this issue we have handled.

What is also desirable about all five of these coins is that in my July 2021 update of my Undervaluation Index™ of the Peace Dollar series, they all merited an Index of more than 20. That means they are among the dates and grades of Peace Dollars that have earned our Highest Recommendation for appreciation potential.

Act Now

Orders will be filled on a first come, first served basis. A complete sellout is likely!

Please refer to the chart on our Computer Quotes page for postage charges. Remember, combined orders of \$5,000 or more are sent post-paid.

Call to confirm availability and lock in your purchase. For best selection, order today. **To Reserve Your Purchase** call us Toll-Free at **800-527-2375**. For faster shipment, you may use your Visa, Mastercard, and Discover credit cards for orders shipped to the card's billing address.

As with all of our numismatic purchases, your satisfaction is guaranteed. You have 14 days upon your receipt to return them for a full, prompt, no-questions refund.
